

70-5052, 47

DD/S 70-4059

8 OCT 1970

Mr. F. C. Turner, Administrator
Federal Highway Administration
Department of Transportation
400 Seventh Street, S. W.
Washington, D. C. 20591

Dear Mr. Turner:

The Commissioner, Property Management and Disposal Service, GSA, has under review the possible disposition of the property known as the Fairbanks Highway Research Station located adjacent to the CIA Headquarters tract. As we understand it, the planned development of this property by the Federal Highway Administration and the expressed interest of several other Departments and Agencies are under consideration.

On four occasions, beginning in June 1958, the CIA has expressed interest in this property should any of it be declared surplus to Federal Highway Administration needs. The Deputy Commissioner, Property Management and Disposal Service recently requested for GSA consideration a current CIA usage plan for this property.

On 28 September 1970 Mr. Charles Scheffey, Director, Research and Development, FHA, was briefed on the proposed CIA plan. On 30 September 1970, it was presented to Mr. Daniel Kingsley and his staff at the GSA Headquarters. Enclosed, for your information, is a copy of the plan showing that portion of the FHA property in which the Agency is interested for its long range construction program should this property become available.

Sincerely,

/s/ L. K. White

L. K. White
Executive Director
